PROVIDING YOUR HEALTH & SAFETY SOLUTIONS

With the ever increasing volume of health and safety legislation affecting the construction industry, supervisors are being expected to take on more responsibility to assist their site managers. The SSSTS course gives supervisors a better understanding of their duties under the various sets of health and safety legislation.

This two day course is designed to provide attendees with the skills and knowledge to understand the health, safety, welfare and environmental issues as well as the legal responsibilities relevant to their work.

WHO SHOULD ATTEND THE COURSE?

This course is designed for those who have, or are about to acquire, supervisory responsibilities.

The people who would benefit from this course include site foremen and supervisors and is endorsed by the Major Contractor's Group (MCG).

COURSE AIMS

To ensure that all supervisors understand:

- Why they are carrying out their identified duties
- What is expected of them.
- The need to contribute to health and safety in the workplace.

BENEFITS

This industry recognised course is ideal for companies that need to meet the ever increasing demand for evidence that supervisors have sound understanding of health and safety management on site. It is also a requirement for contractors working on behalf of member companies of the Major Contractors Group.

TRAINING & ASSESSMENT METHODS

The course will be in the form of a PowerPoint presentation along with tutorials and group and individual exercises. Delegates will be continually assessed and required to complete an end of course exam.

COURSE CONTENT

The course covers the Health & Safety at Work Act and Regulations relevant to the construction industry. For further details please visit our website www.akevasafetysolutions.com
